

2024 Extended Lake Hours Notice

Rev. April 2024

We are excited to announce that this year, we'll be offering the option of extended hours for the Lake. Our new insurance policy has made this possible for the community.

The extended hours will allow permitted residents access to the lake from 6:00 am – 10:00 pm. Please note, that this is only available during the operational season of mid-May to late-September (weather dependent, and/or as otherwise stated by the Owners Association of Harmony).

This extension will not be given automatically. **Every resident** who wishes to enjoy the extra hours will need to fill out and sign our new **Extended Lake Hours Waiver**.

Please note: This is only eligible to residents over the age of 18. Anyone under the age of 18 must be accompanied by a resident over the age of 18.

Once our team has your completed waiver, we'll update your credentials to allow access during these additional times.

The details of this form are being finalized, and we will alert the community when it is ready.

We are also requesting that residents with individual docks and shared lake access lots complete this waiver, allowing extended access to your private and shared docks.

Please note, this extended access will not change the operational hours of the South Beach Building. There will be no access to equipment rentals, outdoor showers, or washrooms. These facilities will operate under the regular schedule of 9:00 am – 9:00 pm. The extended hours are only available during our seasonal operational season of mid-May to late September (weather dependent, and/or as otherwise stated by the Owners Association of Harmony).

Early access will only be available to residents who sign our new early access waiver, and have controlled access enabled.

If you have any questions or concerns, please contact us at admin@harmonyowners.com.
